Subject: QCS Proposal: Further information

Good afternoon,

I have been asked to write to you to ask for clarification on the following matters:

1. QCS Document, page 227, footnote 2: Could you please provide a copy of the CPT's validation of the Soft Measures they produced in March 2010.
2. Appendix Q: Fare Change Winners and Losers by District: Please supply all data (disaggregated and showing your calculations) that underly this graphic including fare zone boundary details.
3. Appendix H: Informal Stakeholder Engagement Results: This appendix is presented in summary form. Please supply copies of any Nexus' briefings given to councillors and other stakeholders as part of this exercise, and copies of all the consultation responses received.
4. Impact of the QCS on Metro and Ferry services: Please confirm what modelling has been undertaken to fully assess the impact of the QCS on these services, together with any underlying data.

Kind regards

Go North East
