

Nexus Insight Panel

Covid-19 attitude tracker. 17th April 2020

Respondents = 409

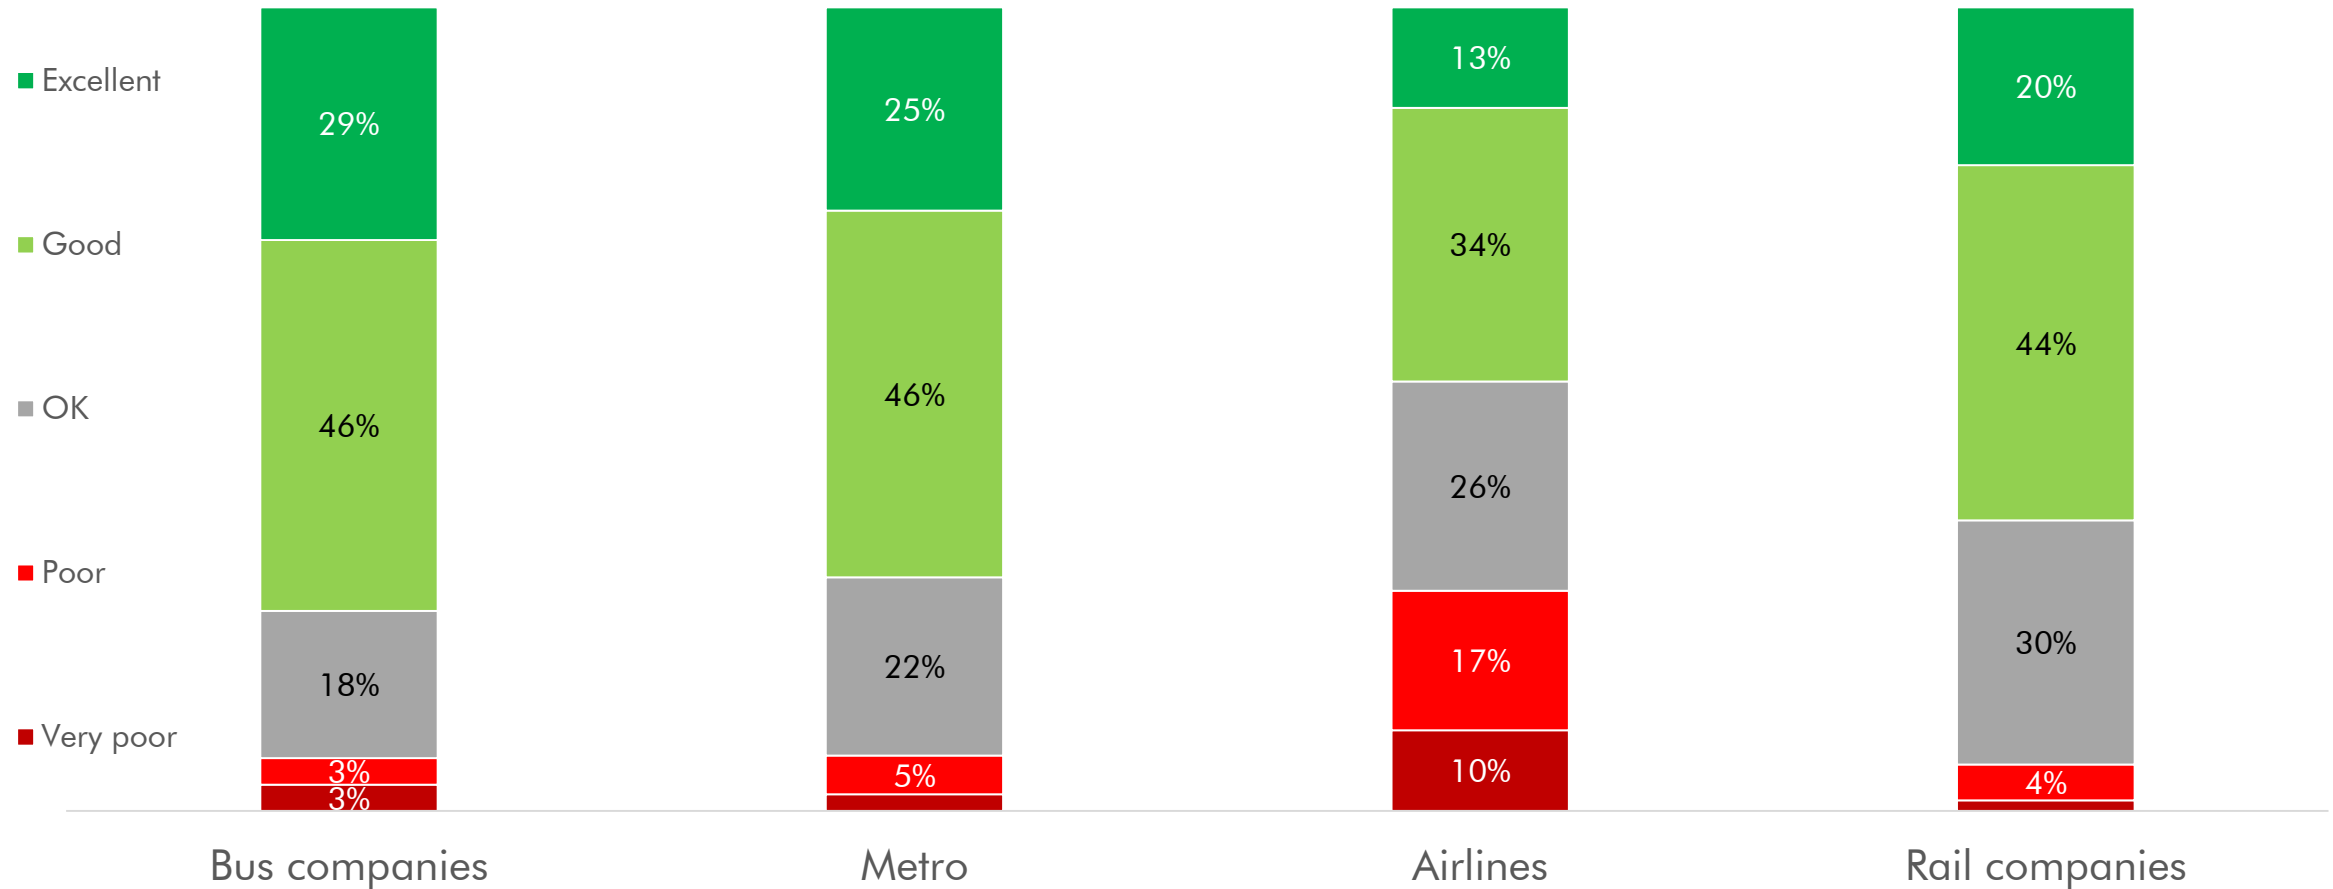

% of people who said "excellent" or "good" when asked how they think Bus/Metro/Airlines/Rail have responded to the pandemic.

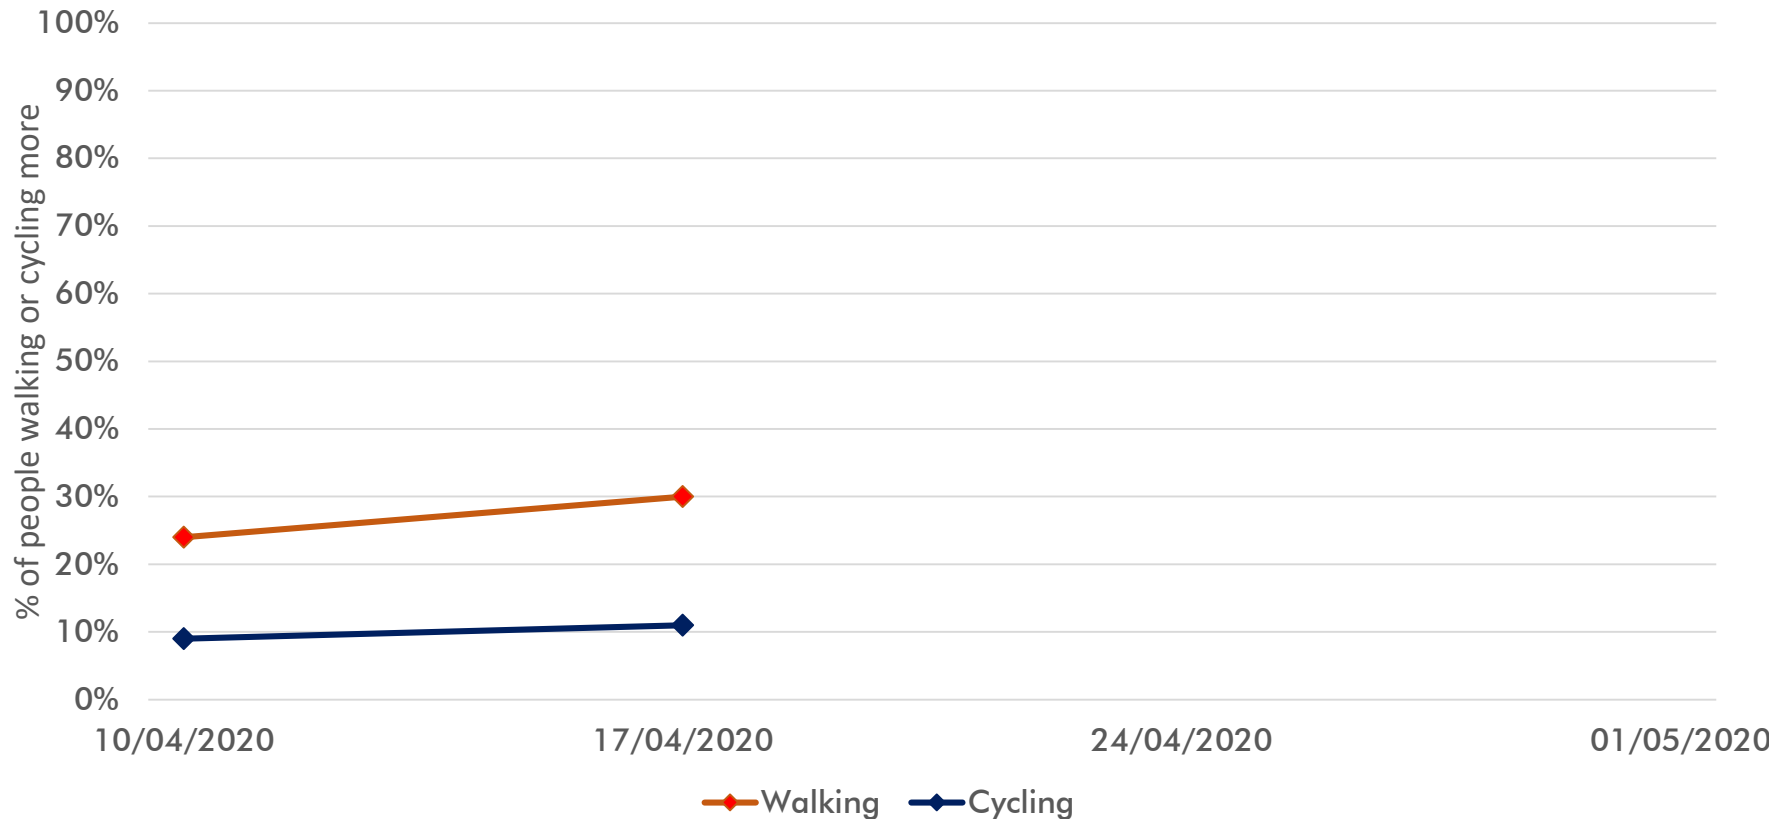

How do you think Bus/Metro/Airlines/Rail have responded to the pandemic? Base: All respondents n=403

Perceptions of how transport providers have responded to the pandemic have remained stable.

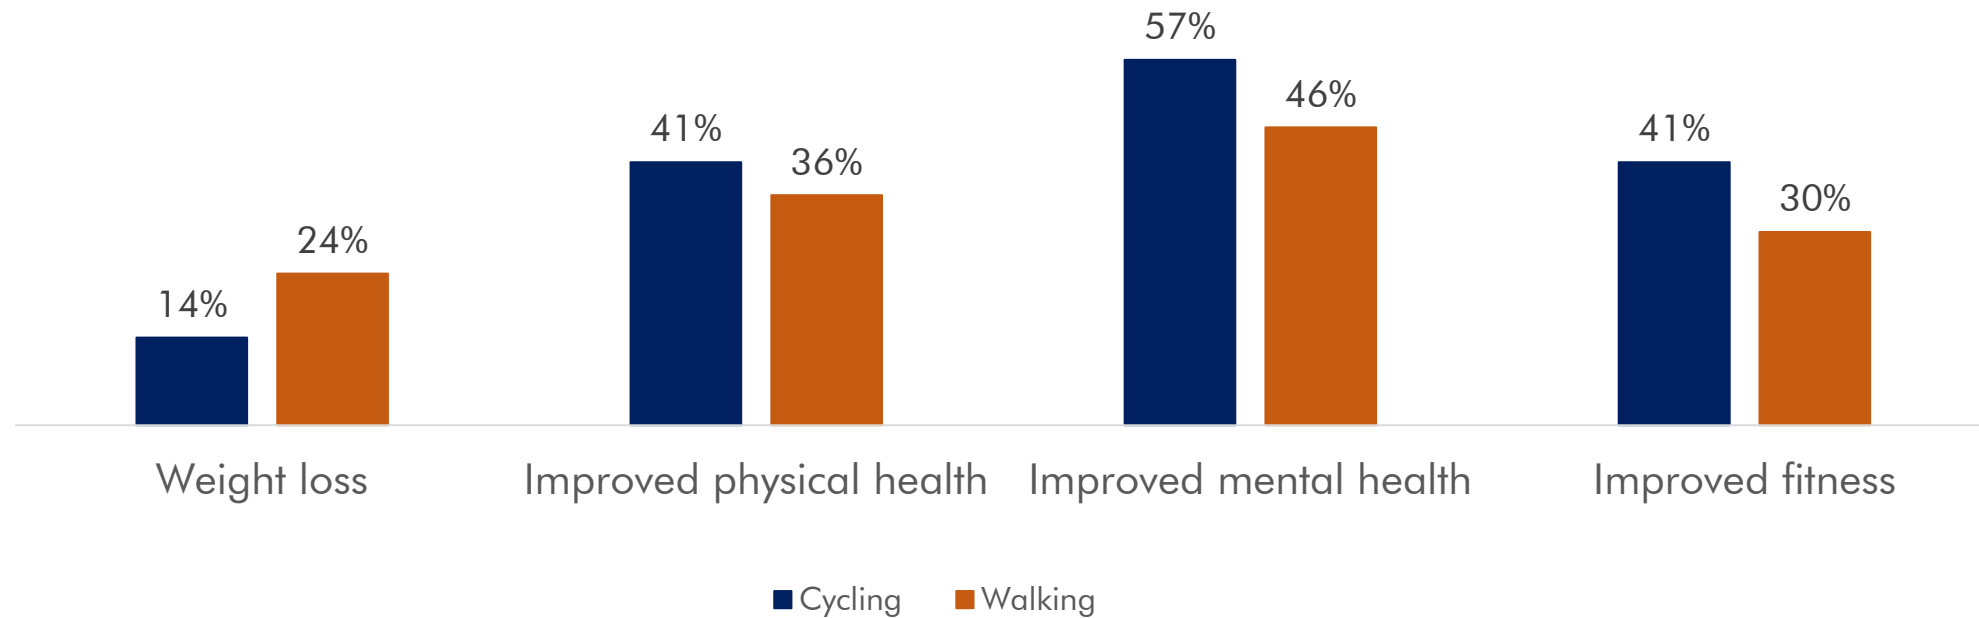

How do you think Bus/Metro/Airlines/Rail have responded to the pandemic? Base: All respondents n=403 (Excludes don't knows)

The proportion of people walking or cycling more than before the outbreak is continuing to rise as the lockdown progresses.

Correction notice
 We now include declared non cyclists (regardless of reason), which has reduced the reported increase in use.

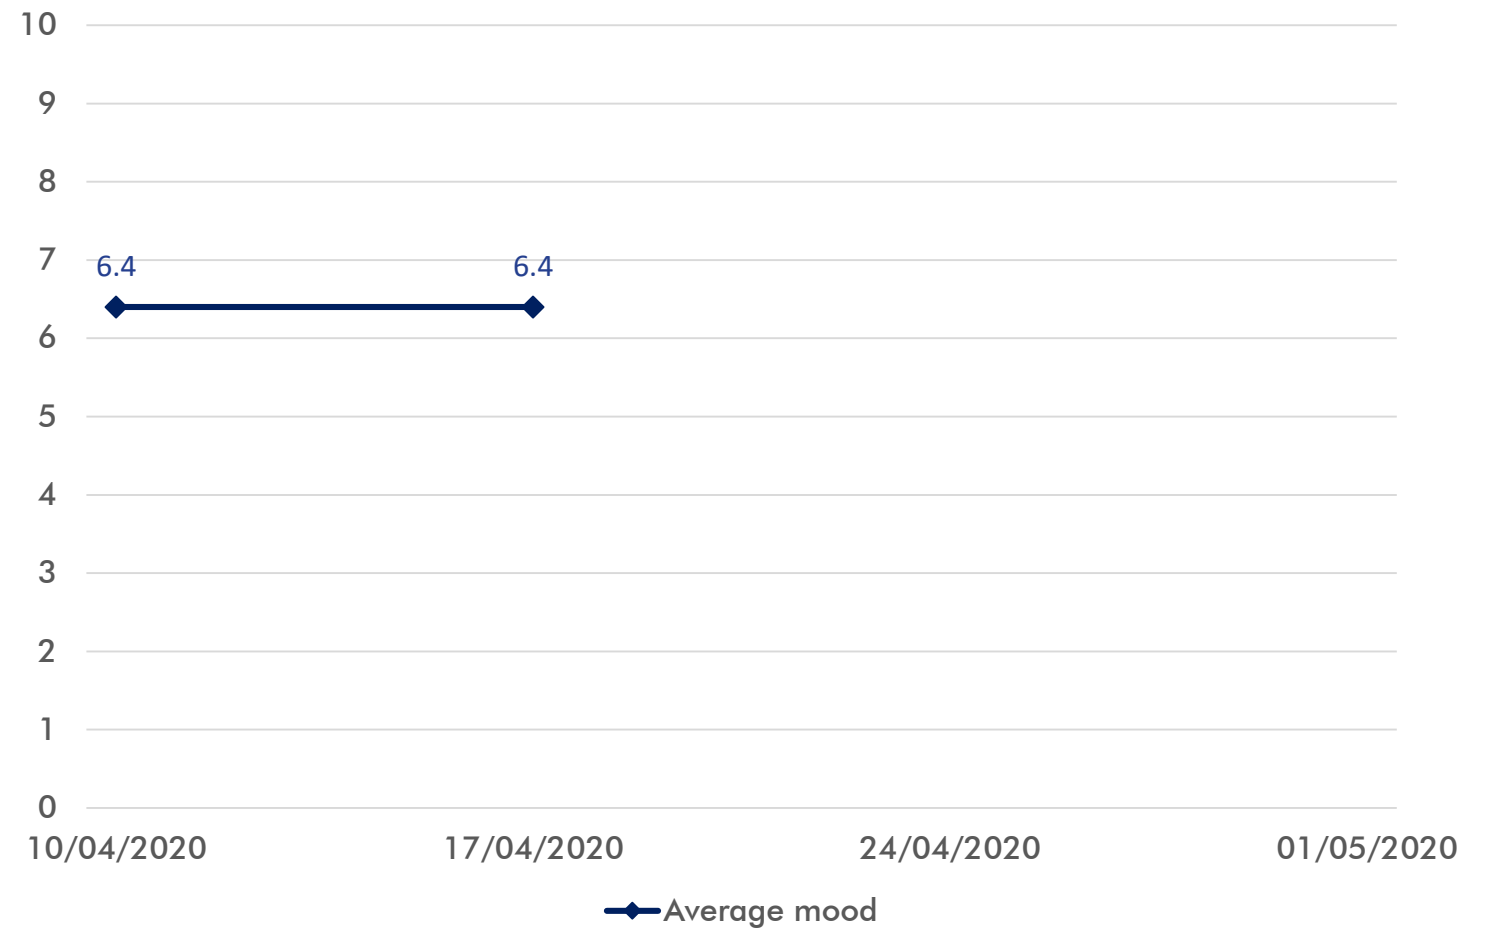

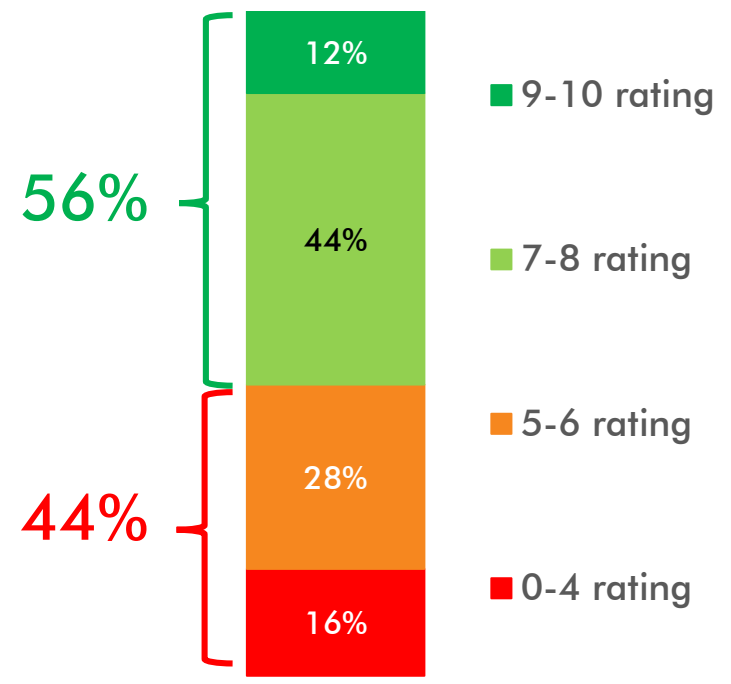

The most reported benefit among those walking and cycling more is improved mental health. During this period of isolation, this is particularly important.

No change in overall mood this week with a slight reduction in those feeling very low.

Average mood
17/04/20
6.4

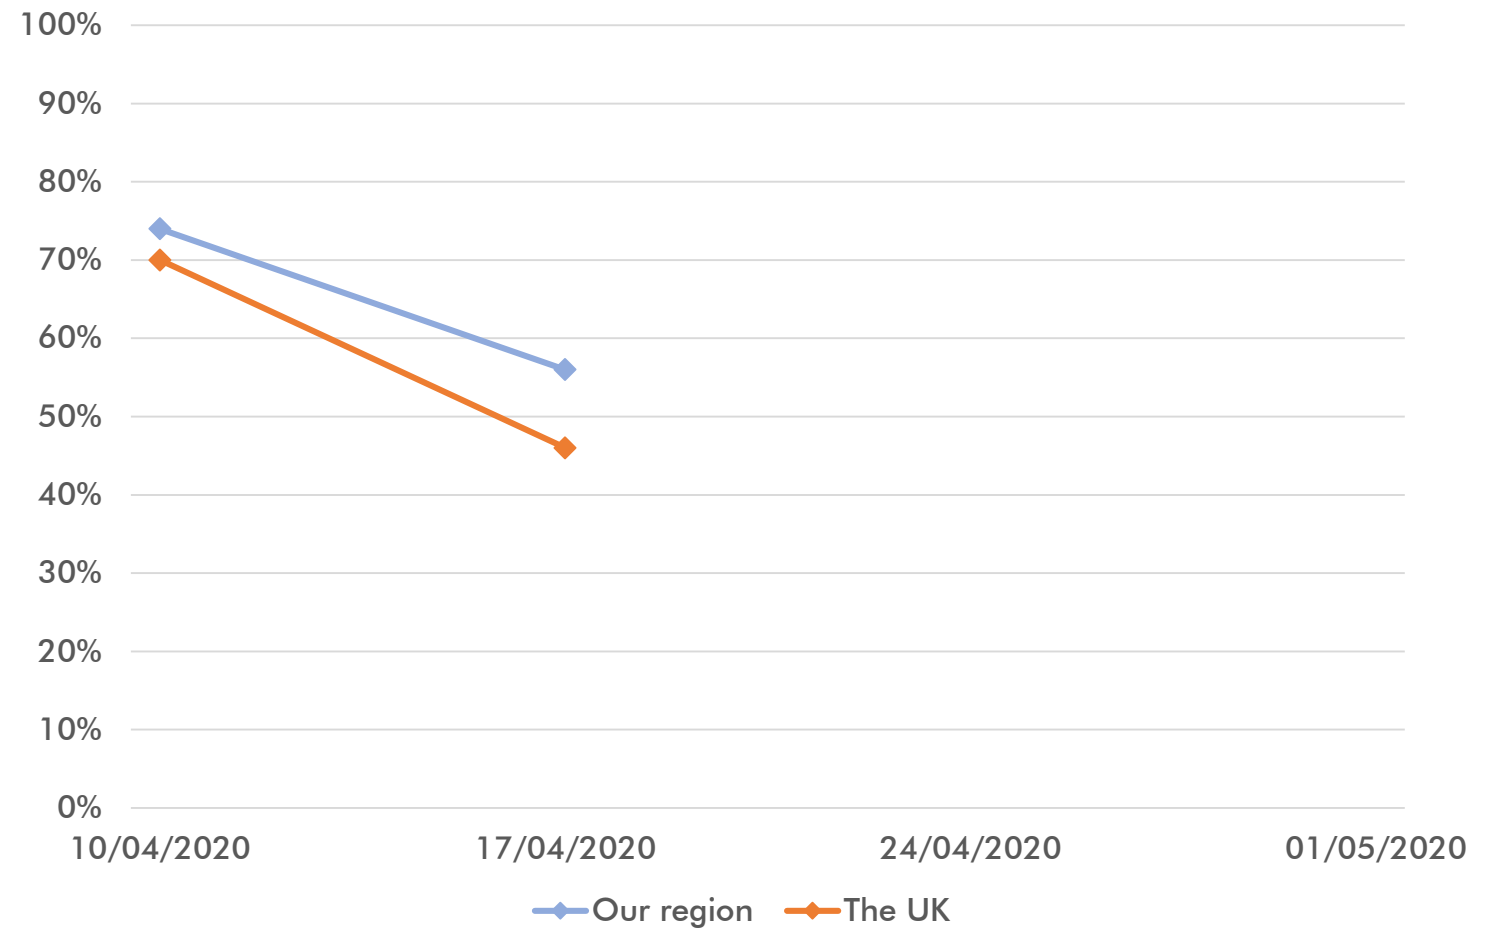

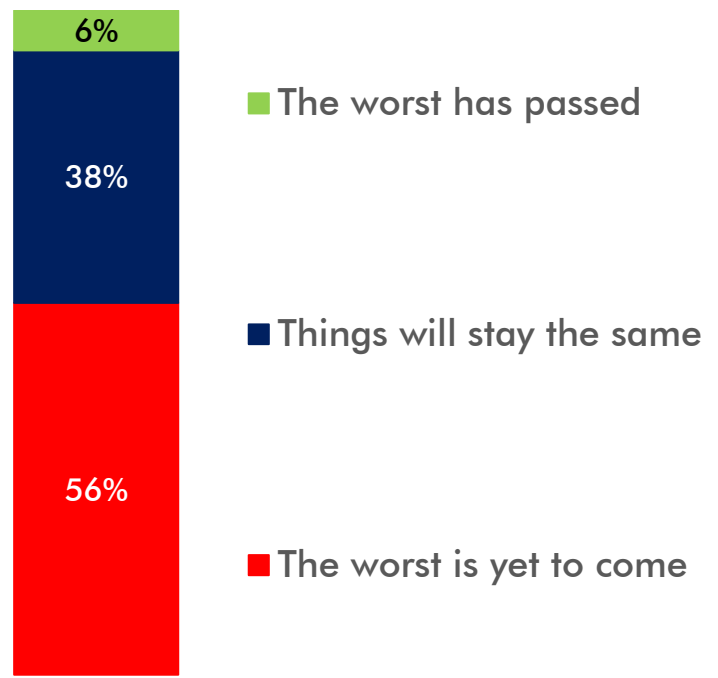

How would you rate your mood today? (0 to 10 Very poor to excellent) Base: All respondents n=399

% of people thinking "the worst is yet to come" regarding Covid-19 and the way it is going to change in the coming month – *a more optimistic tone this week with fewer people thinking the worst is ahead of us.*

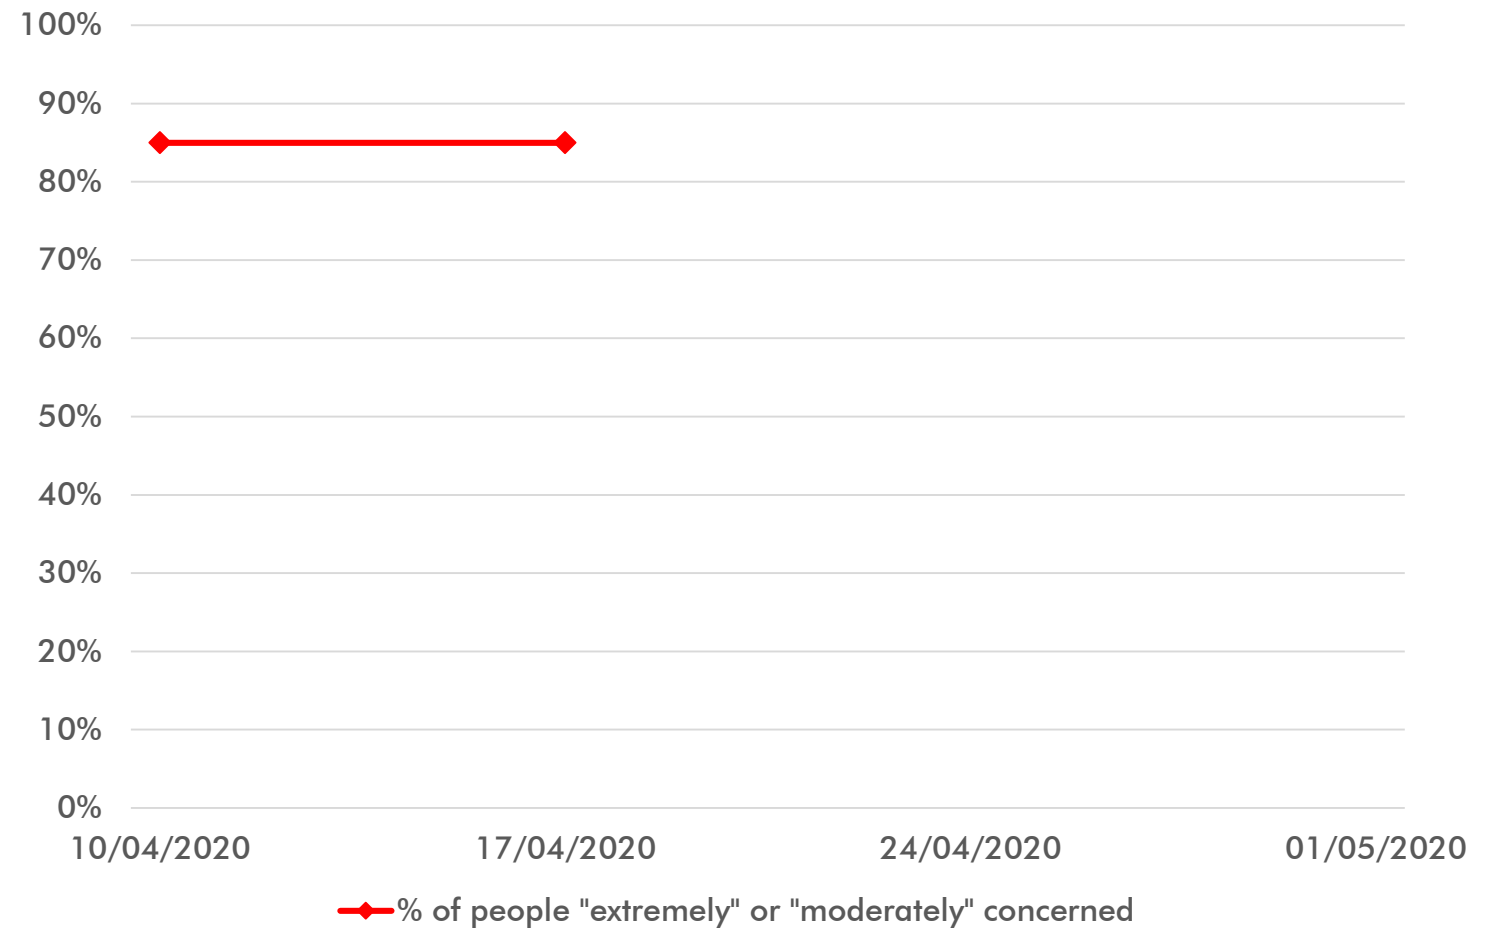

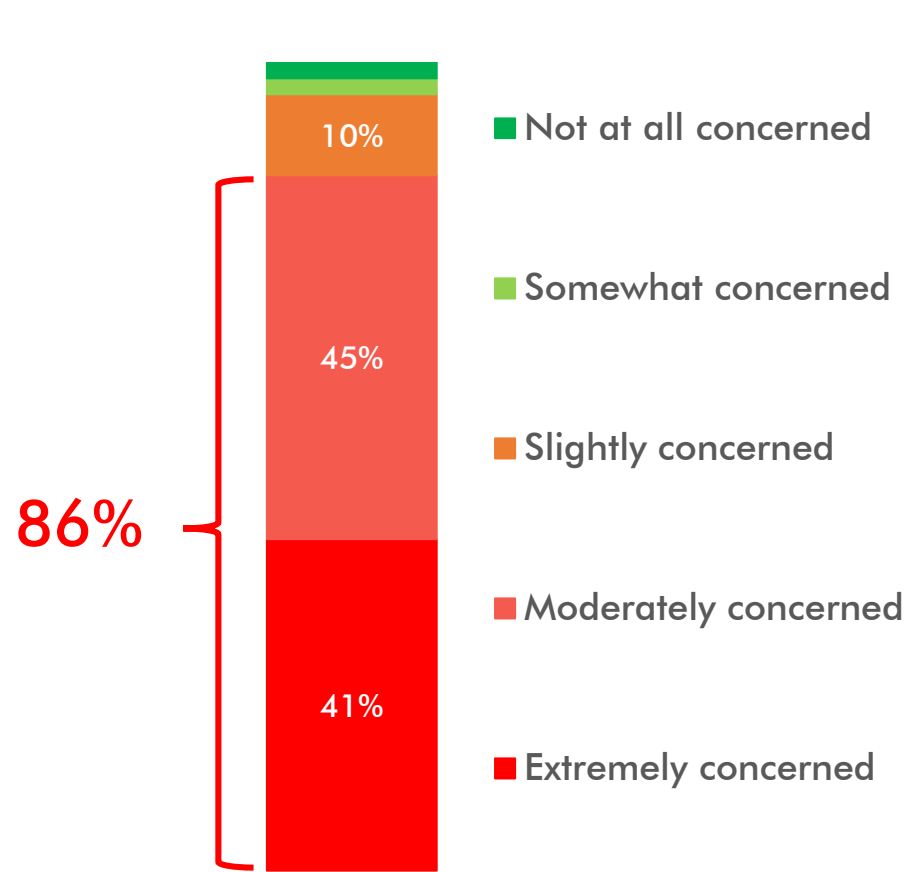

Our region
17/04/20

Thinking about Covid-19 in the UK/our region, and the way it is going to change in the coming month, which of the following best describes your opinion? Base: All respondents n=405

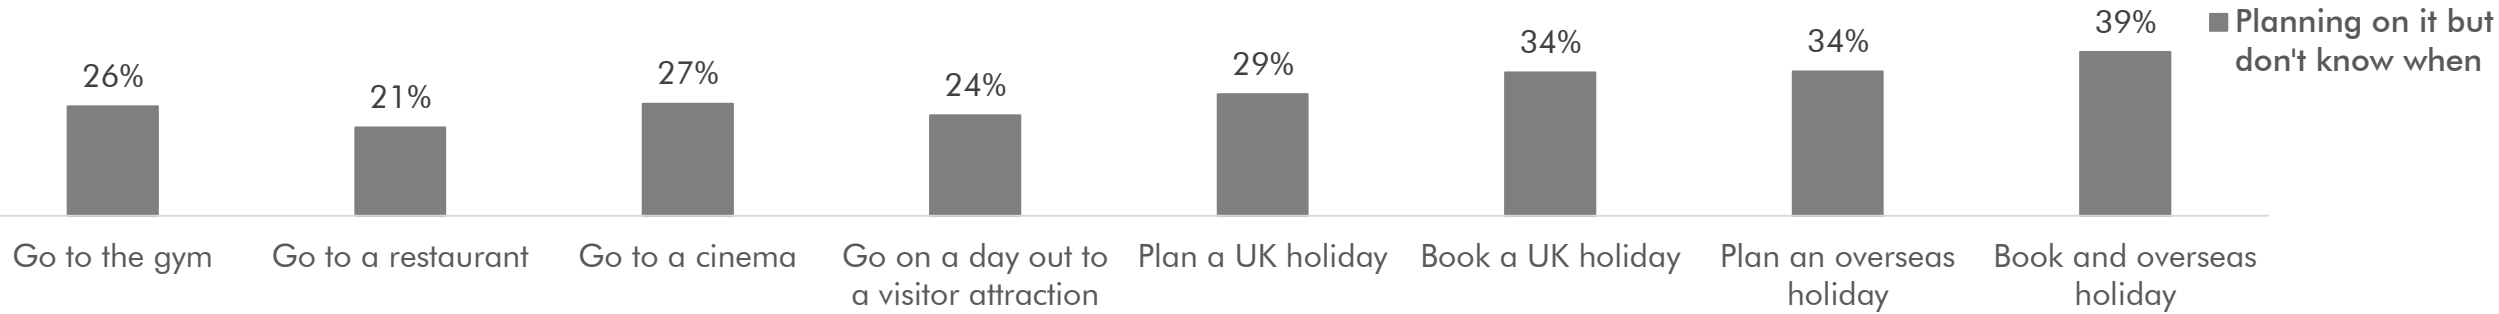

But levels of concern about Covid-19 remain very high

How concerned are you about Covid-19? Base: All respondents n=404

Within the next month

Within the next 2-6 months

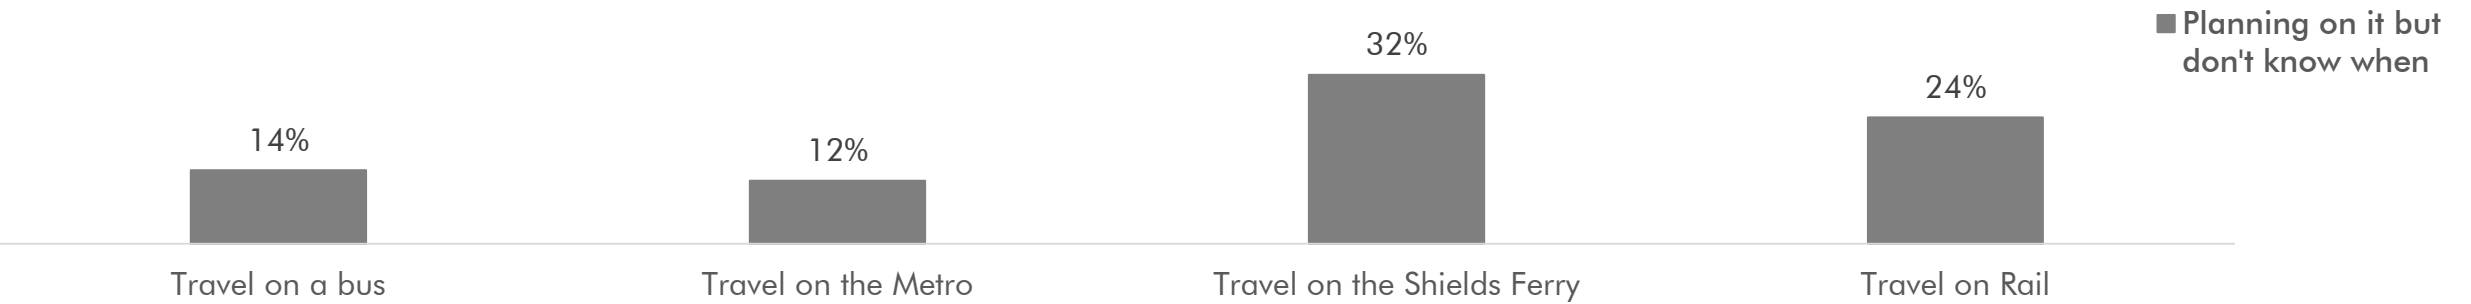

Within the next 7-12 months

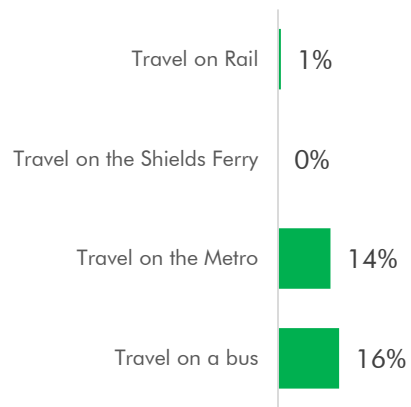

1 month 2 months 3 months 4 months 5 months 6 months 7 months 8 months 9 months 10 months 11 months 12 months

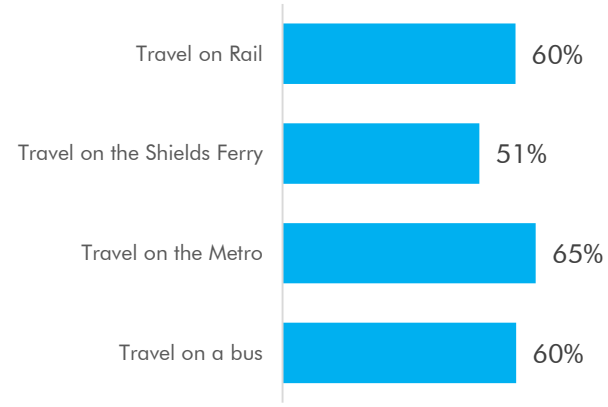

When will respondents use public transport again? – *Majority still think this is several months away*

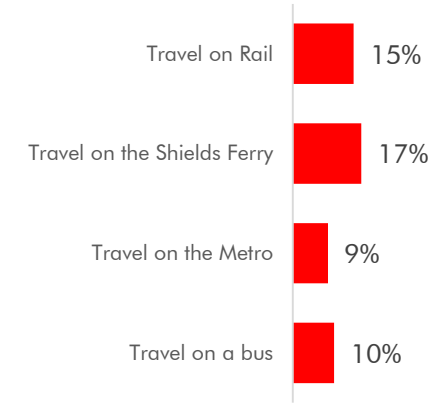

Within the next month

Within the next 2-6 months

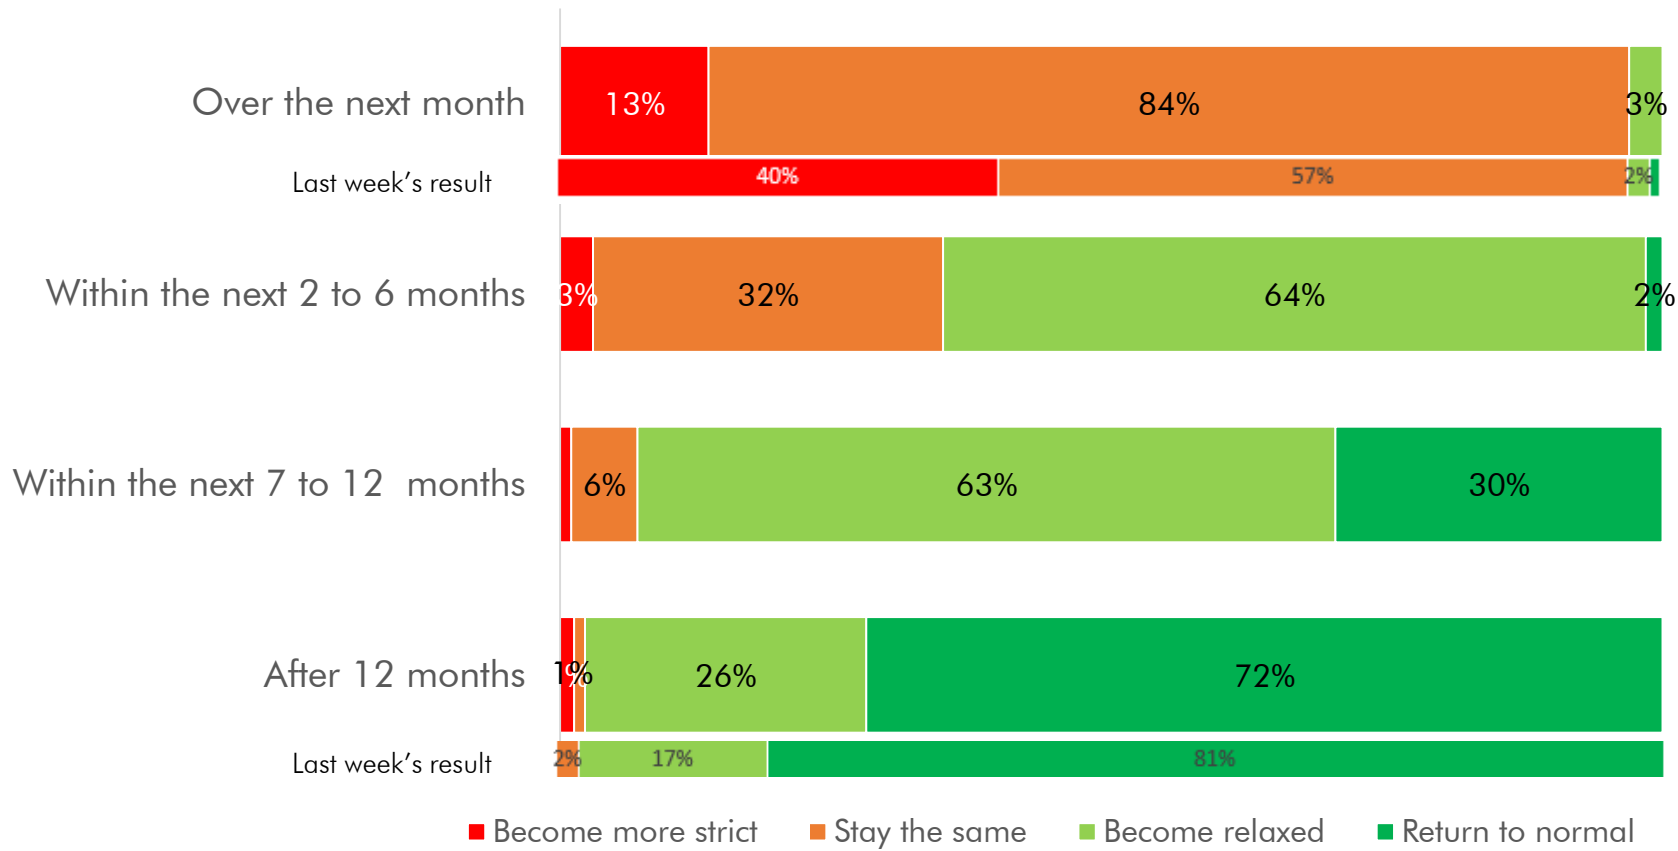

Within the next 7-12 months

Given what you know today, when do you anticipate doing the following? Base: All respondents n=400 (Excludes N/A)

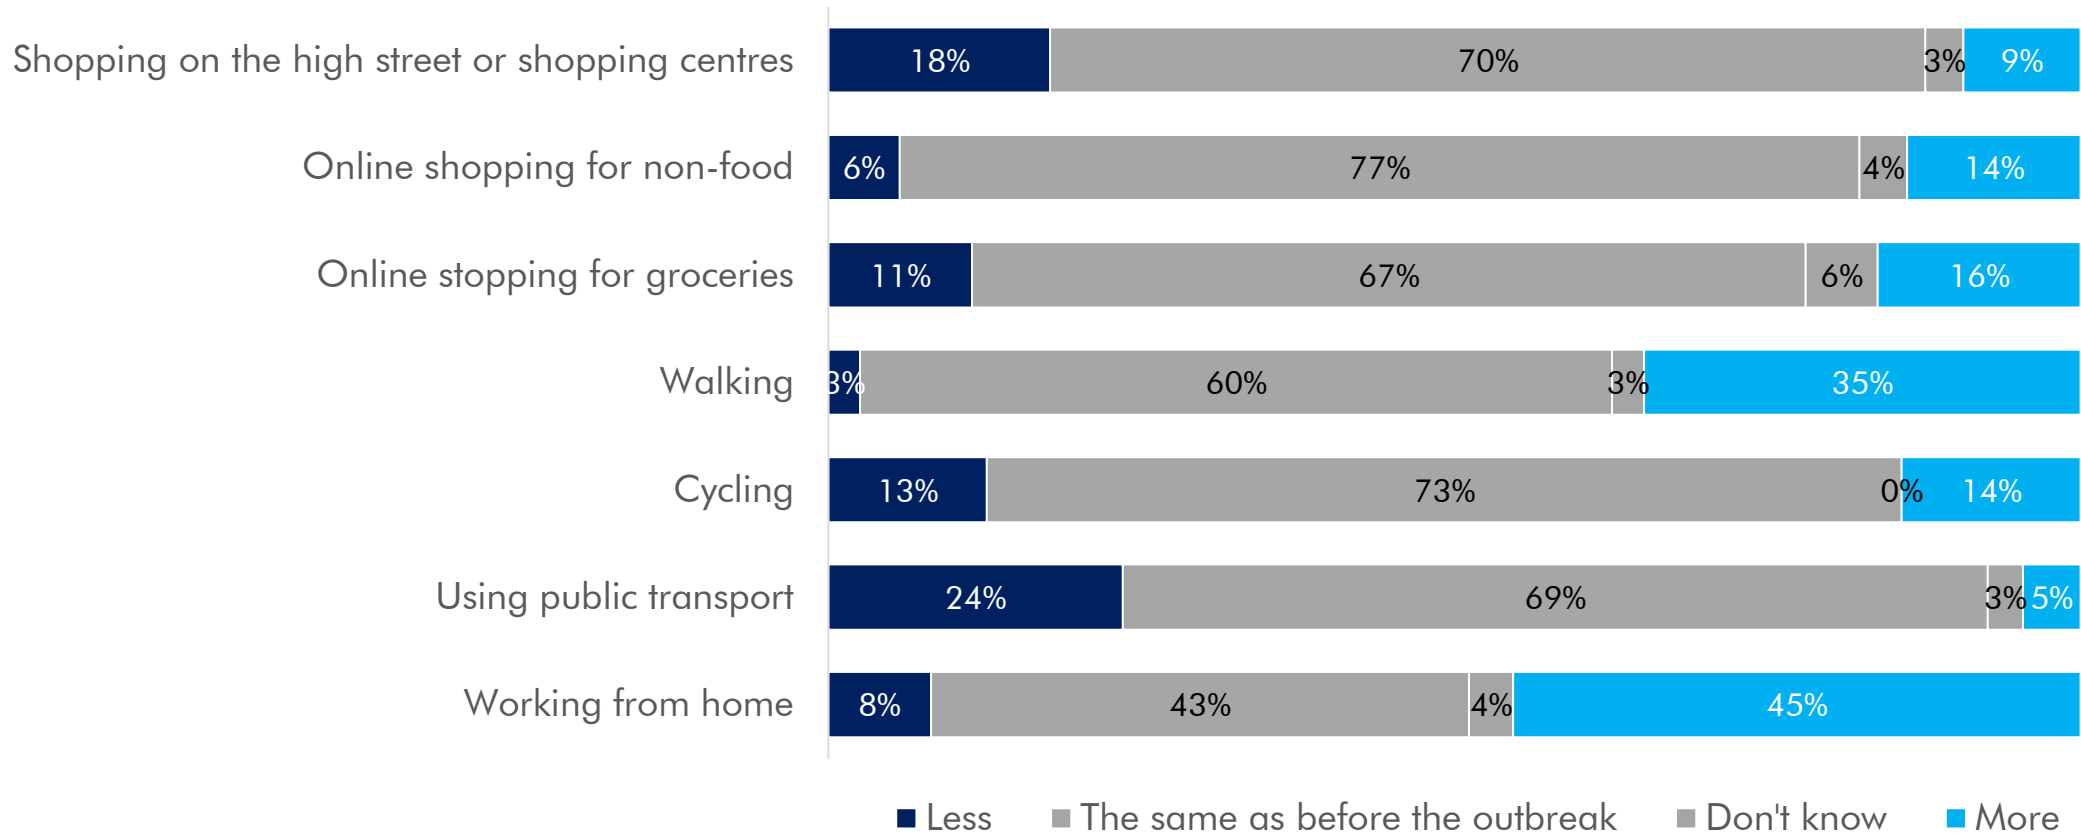

Significantly fewer people thinking restrictions will become stricter from 40% last week to 13% this week, but an apparent acceptance that normality will take longer to achieve

Given what you know today, how do you think social distancing rules will change? Base: All respondents n=401

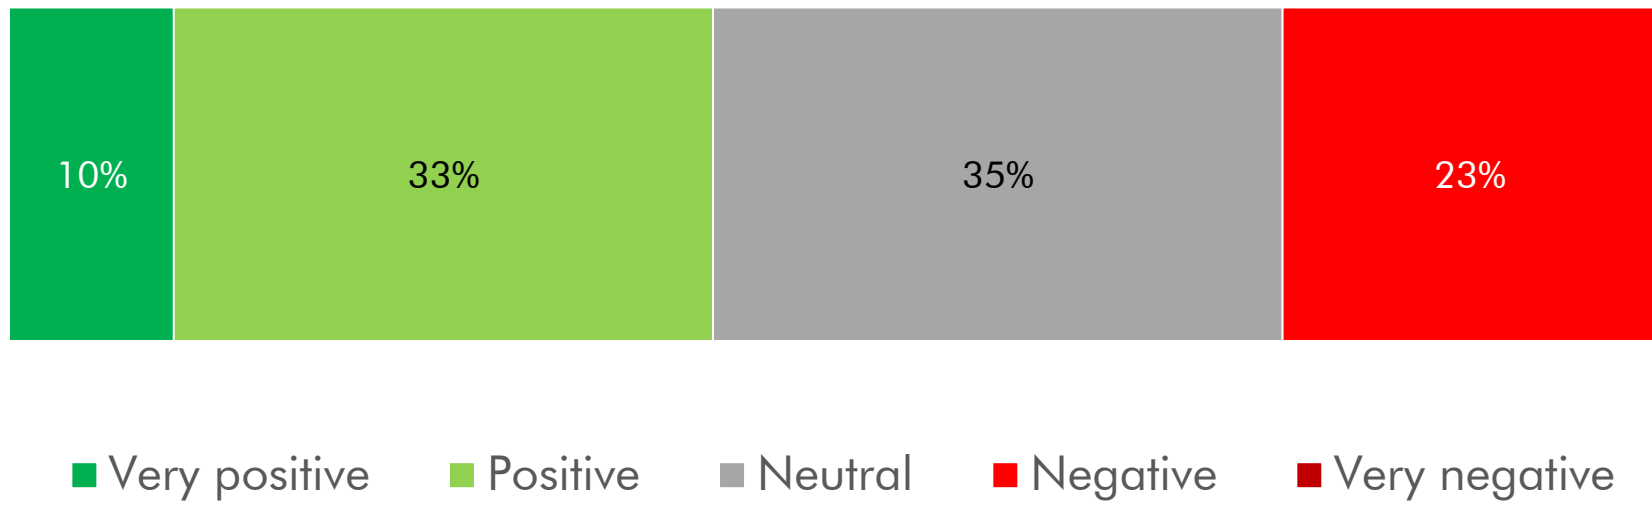

Those expecting to work from home have increased at the expense of using public transport

When the current situation is over and things return to normal, do you expect to do any more or less of the following compared to before Covid-19? Base: All respondents n=399

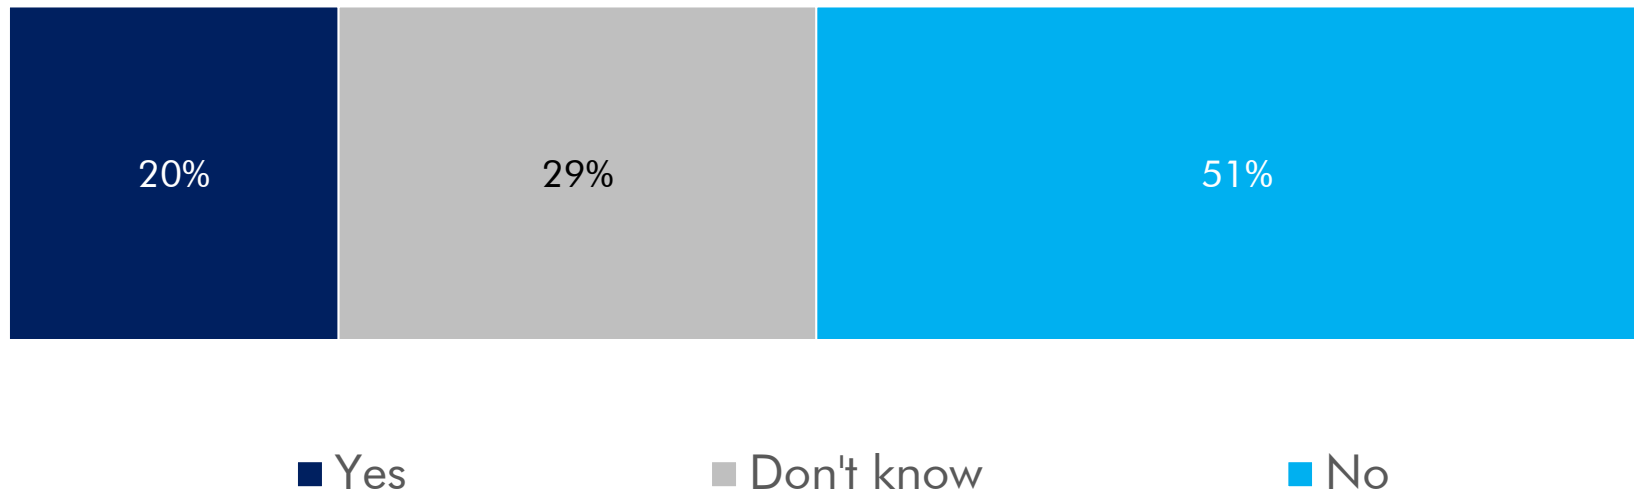

The working from home experience

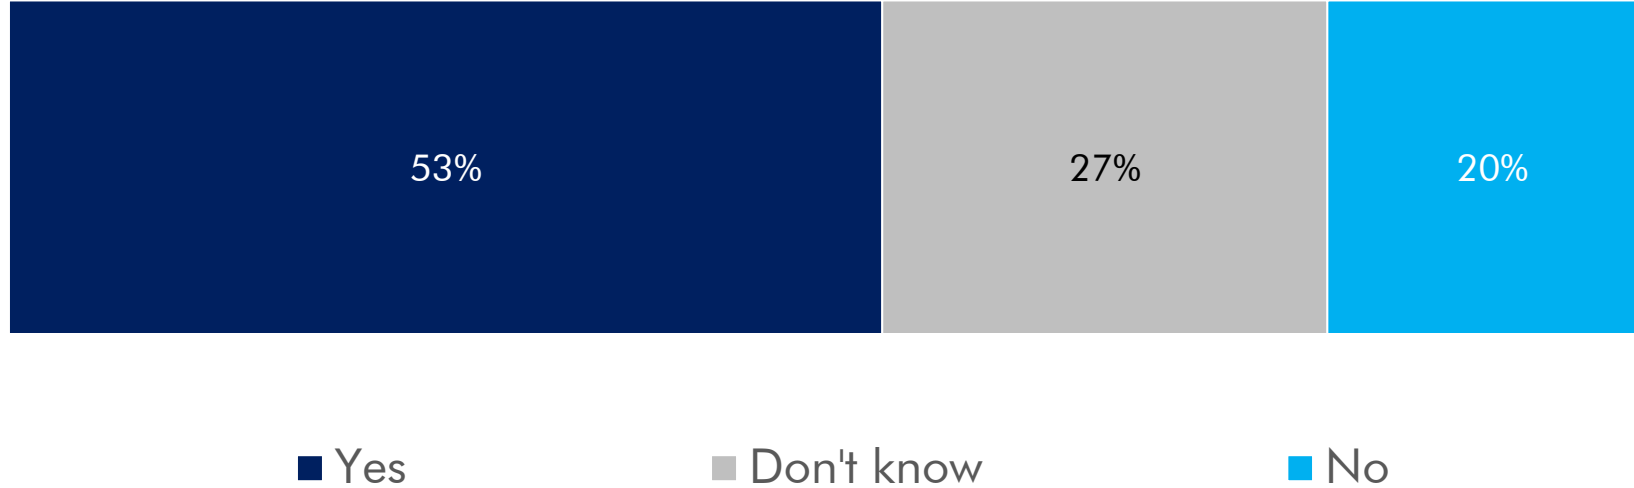

How have you found the experience of working from home? Base: Respondents who are working from home that did not previously work from home n=110

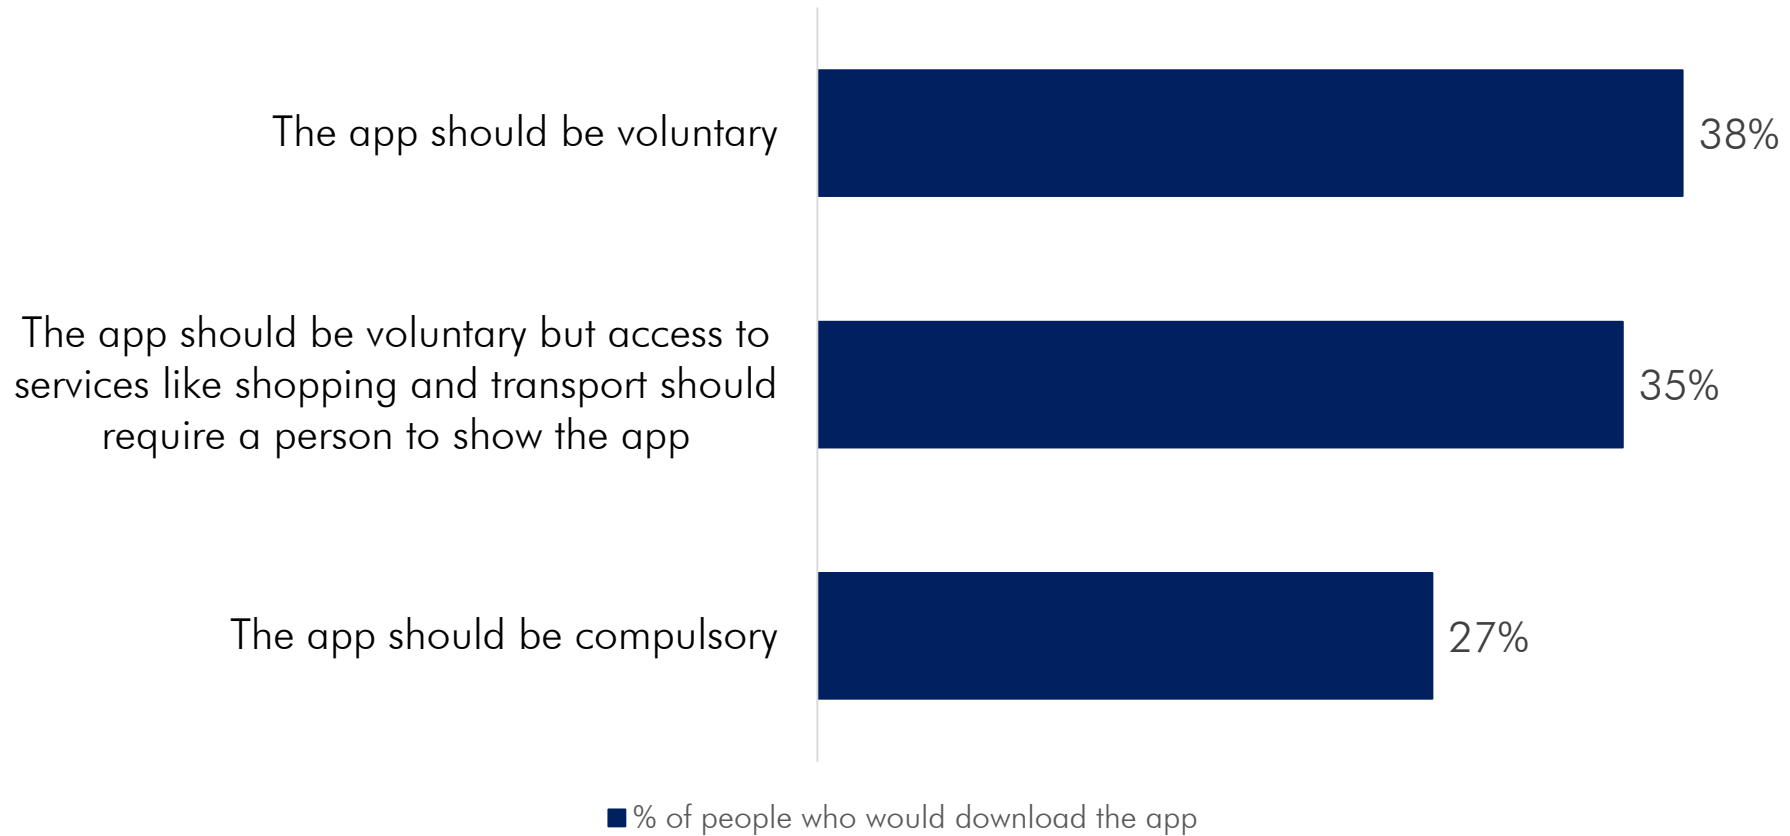

Will employers permanently introduce working from home when social distancing is eased?

Will you download the NHS Covid-19 contact-tracing app?

More than half of those who support the app believe there should be some form of encouragement or enforcement.

Why won't you download the NHS Covid-19 contact-tracing app?
