

## METRO NIGHT WORKING AND LINE CLOSURE WORKS IN YOUR AREA:

### MONDAY 22 APRIL 2024 TO SUNDAY 28 APRIL 2024

To keep Metro running smoothly for our 36 million passengers every year we often have to do work on the railway lines in the hours when trains do not operate, between midnight and 5.30am.

Our engineering teams work extensively on the network every night, carrying out inspections, patrols and maintenance works and clearing litter while passenger trains do not operate. Metro is one of the UK's busiest railways and needs looking after, so some noise and disturbance for our neighbours is to be expected.

For security reasons we no longer list all the works taking place at night, but below you will find details of the larger engineering projects – those involving the use of heavy or particularly noisy machinery. Sometimes there will be late changes to this schedule, which will be posted at [nexus.org.uk/nightworks](https://nexus.org.uk/nightworks) and sent out by email.

If you have particular concerns about work to be carried out, please contact Customer Relations at [customerrelations@nexus.org.uk](mailto:customerrelations@nexus.org.uk)

We apologise for any disturbance our work causes you and assure you that every effort will be made to keep inconvenience to a minimum.
